Goddis created quite a sensation Tuesday night before the door of the committee on credentials by telling Wm. S. The quarrel originated in an attempt of Goddis, who was elected alternate-at-large for New Jersey, to take the place of Hon. John I. Blair, whose alternate Murrill was. Mr. Blair was unable to be at the convention, and Murrill claimed the right to take his place. This claim was disputed by Gen. Jewel and Goddis. Murrill rose in the convention and attempted to state his side of the case Tuesday morning, but Chairman Fassett ruled him out of order. The committee on credentials decided the matter in favor of the colored gentleman, which so incensed Goddis that he yelled out to him in front of the committee door: "I have bought many a nigger like you." for Their Suffrages. We reaffirm the American doctrine of pro-tection. We call attention to its growth abroad. We maintain that the prosperous condition of our country is largely due to the wise revenue legislation of the republican congress. We believe that all articles which cannot be produced in the United States, except luxuries should be admitted free of duty, and that on all imports coming into competition with the products of American labor there should be duties levied equal to the difference between wages abroad and at home. We assert that the prices of nanufactured articles of general consumption have been reduced under the operations of the tariff act of 1890. We denounce the efforts of the democratic majority of the house to destroy our tariff laws by piecemeal as manifested by their attacks on wool, and lead ore, and we ask the people for their judgment thereon. We point to the success of the republican policy of reciprocity, under which our export trade has vestly increased, and new and enlarged markets have been opened for the products of our farms and workshops. SOUTHERN OUTRAGES.
We denounce the continued inhuman outrages perpetruted on American citizens for political reasons in certian southern states of the Union.

We favor the extension of our foreign con-merce; the restoration of our merchant marine by home-built ships and the construction of a navy for the protection of our national interersts and the honor of our flag; the maintenance of the most friendly relations with all foreign powers; entangling alliances with none, and the protection of the rights of our fishermen. We reaffirm our approval of the Monroe doctrine and believe in the achievement of the manifest destiny of the republic in its broadest sense. We favor the enactment of more stringent laws and regulations for the restriction of criminal, pauper and contract immigra-

The republican party has always been the champion of the oppressed, and recognizes the dignity of manhood, irrespective of faith, color or nationality. It sympathizes with the cause of home rule in Ireland, and protests agaists the prosecution of the Jews in Russia. The ultimate reliance o' free, popular government is the intelligence of the people and the maintenance

of freedom among men.

We declare anew our devotion to liberty of thought and conscience, of speech, of press; and approve all agencies and instrumentalities which contribute to the education of the chilthreaten to bring the matter up in the | dren of the land; but while insisting upon the fullest measures of religious liberty, we are opposed to any union of church and state. We reaffirm our opposition, declared in the republican platform of 1888, to all combinations of capital, organized to control arbitrarily the conditions of trade among our citizens. We heartily indorse the action taken on this issue and ask for such further legislation as may be and to render their enforcement more complete and effective. We approve the policy of extending to towns and rural communities the advantages of the free delivery service now enjoyed by the large cities of the country, and reaffirm the declaration contained in the republican platform of 1883 pledging the reduction of letter postage to one cent at the carliest possi-

respect at least."-Boston Post.

He Never Queered His Friends Nor Shook His Mother. After the trial, confined in his small stone box in the county jail, in that wild mining town in Colorado, Bill Bar-

ton had plenty of time to think. But, strive as best he might, his thoughts always went around in the required to remedy any defects in existing laws, same circle, beginning and ending with a single name. That name-well, never mind it now.

No home, no good influences, no words of cheer or consolation. Such had been the life led in the past by this man. When he was not sitting in the Happy Days' saloon he was over in St. Collier's gambling hell, playing his money across the green. How he came to drop his man he

really never knew. The rude justice of the place and the twelve red-shirted The construction of the Nicaragua canal is of men declared it murder, and he laughed like a madman when they said that he should die on the ninth day by stretching hemp.

And as he sat in that damp, narrow stone box night and day, day and night, with his doom coming nearer and nearer, gradually his spirit of bravado began to break. Somehow, in the long watches of the night, back again camesweeping that name, for he was always thinking of it now, and it was always

Then came the last night on earth. It was a tranquil one for Bill Barton, the murderer of Sandy McBride. Strange to say, he managed to sleepsome, and then came a socthing fancy of another time and another place, fargone now, when life had meant so much more to him than these later years had ever known. Into his dreams that last night a sweet tranquility stole that did not seem to be of this world.

And that name-it was always there. At daylight the sheriff touched his face and bade him rise and meet his death with his boots on, like a man. Bill Barton smiled. The boys gathered around the tree. The parson offered his words. It was very still, and Bill kissed the Book, but said not a word. Then they asked him if he had anything to say before his soul was swung off in the dark.

In his face came a pathos such as lives: only once in a lifetime, in his voice the resolution of one who calmly welcomes.

He turned to the gang. "Boys," he said, "I thank Heaven that an old gray-haired woman shall never know this day's events. I brokeher heart long ago and she has passed on ahead. But it does me good now tothink that I never yet queered my friends or shook my mother.'

They say Bill Barton's death was like that of a child-so peaceful, so free from pain. In it the man who never queered his friends squared up his black years
